The P & C would like to thank everyone for their support of the Bunning’s Sausage Sizzle we held last Sunday 18 August. It was a massive success thanks to all the parents and staff who volunteered or attended to buy sausages and drinks on the day. We have raised $1440 from this one sausage sizzle. A lot of work but well worth it for our students. Thank you.

Debbie Gray-P&C Secretary

MyTime at Caboolture

When: Tuesday 3rd September
Where: Hogs Breath Café
Morayfield
Time: 9:00 am
All parents are most welcome to attend.

PRINCIPAL’S MESSAGE
Hello Parents, Carers and Friends

Term 3 is quickly progressing as we share many events with our students and school community. Last week we shared two Sports Days in field and track events. It was wonderful to see so many families come to Apex Park last Thursday to watch and cheer on the students in their races. Similarly we welcomed many parents to school last Tuesday to encourage our students in games and field events. Here’s a sample of the activities and our happy students and their parents:

PARENT PATCH
Many of you would be aware of the MyTime parent support program that we operate at our school. This week we welcomed our new facilitator, Rachael, to the program and I thought I would share some information from the MyTime website for those parents who may not yet have taken advantage of the support this group has to offer.

What is MyTime?
MyTime is the name of a program which sets up local facilitator supported parent support groups across Australia. Mothers, fathers or other family carers of children with a disability, developmental delay or chronic medical condition can meet and get to know each other, learn from each other, access and discuss up-to-date research based information in caring for a child with a disability or chronic medical condition and link to their local community and find local support services. MyTime groups bring families together, and encourage members to support each other. A play helper is provided to keep children busy and engaged so members can meet and talk with others.

Why should I join a MyTime group?
Your local MyTime group will bring you together with people who share similar challenges to your own. Through talking and sharing experiences, you can build relationships with other families. You can also find research-based parenting information and learn new skills. By looking after your own wellbeing, you are looking after your child.

Is MyTime free?
MyTime groups are free for families and carers who are eligible for the Child/Carer Allowance. MyTime is funded by the Australian Government Department of Families, Community Services and Indigenous Affairs (FaHCSIA).

TRANSITION DEPARTMENT NEWS
I will make a calculated guess and say that the highlight of everyone’s week must surely have been the two days of sporting activities. These two days were by far the best ever, thanks to many, many people, especially Ben, Di G and Kaye. The speed of Ryan M, the determination of Leanne L, the driving skills of Ashlee K. Flipping it over. Off particular significance was the fact that for the first time, the students in the Transition Department elected sports’ captains for each of the houses. They are: SHAKES – Ryan M and Jade McC-H EAGLES – Jordan H and Rebecca I KANGAROOS – Clifford T and Courtney P DOLPHINS – James M and Rebecca W

Congratulations to Ben E. for being the most successful on Monday and to Alexis P. for the invention that flew the longest distance on Wednesday. Great work!!

Student experiences in the English curriculum continue with all classes being immersed in the Fairy Tale unit. In addition to their work unit our P-3D class have begun their involvement in the Reading Goal Way program. A big thank you goes to Susan and Hayley for accepting participation in this trial program!

Judy Bean – P-3 Department Leader

P - 3 DEPARTMENT NEWS
Thank you to the parents, family and friends who attended the Sports School Day at Apex Park last Thursday. Two students in P-3F who won medals on the Day were proudly wearing them this week. Well done to all our wonderful P-3 students and staff for an exemplary day of fun and friendly competition! A special mention goes to George P. for having the courage to participate in sports this day. Good on you!!

Science unit activities have taken place this week. The students have been experimenting with paper and flight. The S-5 P-3 classes in S block enjoyed time together on Monday to trial their inventions while the S-5 P-3 classes in J block have joined together on Wednesday for their turn at this hands-on learning experience. Congratulations to Ben E. for being the most successful on Monday and to Alexis P. for the invention that flew the longest distance on Wednesday. Great work!!

PARENT TRAINING SESSION
proloquo2go

Shannan Hammond (our school Speech Therapist) will be offering another group training session for parents/carers on the app Proloquo2go.

Date & Time: Wednesday 4 September 9:30am – 1:00pm
Where: 5 Block meeting room
What to bring: A copy of Proloquo2go on your child’s iPad

What you will learn:

• an introduction to the app
• how it can potentially assist your child’s communication
• instruction on how to customize the app e.g. how to edit buttons, add buttons to pages/folders, edit pages, create new page
• link pages together to make the system suit your child’s individual communication needs

A light morning tea will be provided. Even if you don’t own a copy of this app but you would like to learn more about how it can help give your child a voice, you are most welcome to attend.

“Catching Curriculum”

This week we are celebrating Science Week.

Classes are joining together for a ‘Science Brain Break’ Morning Tea and challenge. The Challenge: If you had one piece of paper how far could you make it move through the air?

We have been very happy to have the Aboriginal Elders visit our school and teach the 4-6 students about Aboriginal people and their culture, every Thursday during middle session. All our students are welcomed as they listen to Dream Time stories and participate in a variety of art activities to reinforce learning. It also ties in with our literacy unit, traditional stories.

We have also had a very positive and fun sports day at Centenary Lakes which was enjoyed by all. It was great to see all the students joining in the races, participating to the best of their ability and cheering each other to get to the finish line.

The 4-6 students have been making a range of objects out of paper for science week. They will be having a competition to see whose projects will travel through the air the furthest. The competition will be held this week on Thursday, where students will have morning tea on the oval.

7-9 DEPARTMENT NEWS
I love this quote, it’s what we do at Caboolture Special School and it’s what I see happening in each of our classrooms. Students involved in so many different aspects of their learning. They are not passive but they are active participants in activities that are shaping their capabilities, growing their minds and enlarging their futures.

Last week students were involved in the sports carnival and had 2 terrific days of competing in activities or supporting students in their races. This week is Science Week at school and students are involved in ‘flight’ experiments and will be sharing their learning at combined morning tea on Thursday.

I love seeing the smiles on our students faces as they actively participate in these and other activities – priceless moments.
