‘Get Started Program’
Eligible children and young people are provided with a voucher to the value of $150.00 for the payment of membership and/or participation costs.

Round 2 of the program started on Monday 15th July 2013. Vouchers are allocated on a first come first served basis. Further information is available on the National parks, Recreation, Sports & Racing website
www.nprsr.qld.gov.au/getinthegame

SCHOOL NOTES & LETTERS
NOTES/LETTERS SENT HOME ON YELLOW PAPER WILL REQUIRE A SIGNATURE AND/OR OTHER ACTION BY THE PARENT/CARER AND RETURNED TO SCHOOL. THESE NOTES WILL HELP PARENTS/CARERS IDENTIFY NOTES OR LETTERS WHICH REQUIRE YOUR IMMEDIATE ATTENTION.

LATE ARRIVALS & EARLY DEPARTURES
To ensure the safety of our students, it is a requirement for all students who are arriving late or leaving early to have a responsible adult sign them in/out at the office.

The completed slip, which needs to be signed by a admin staff member, is to be given to the classroom teacher upon collection/drop off of the student.

Thank you for your cooperation and support in the process of keeping our students safe.

Hello Parents Carers and Friends,

Over the past week we have been fortunate to meet a member of the community who, having seen an article about our school in the newspaper, called in to offer assistance with our school raising with the P & C to purchase some new bicycles. Sometimes people such as this man come ‘out of the blue’ and it makes us stop and think about all those in our community who so generously give of their time and expertise to assist our students.

Our next whole school event is our Bush to Bay Bike A Thon this Saturday. The working party have been steadily working with the P & C to make this a fun filled day for everyone! A reminder that students can bring along their sponsor forms on the day if these have not already been returned to school. This is the first year for this event and we are looking forward to everyone joining in and enjoying the riding and/or bike decorating. There’s still another couple of days to collect sponsors and come along and join in!

This week our students in the Duke of Edinburgh Award programme set off on their bushwalk as part of their Adventurous Journey. A great start to another very special programme for our students.

Next week is Literacy and Numeracy Week and we have invited members of our community to come in and read to our students. Last year this was very successful and the students enjoyed our favourite stories that we read to different classes.

Thank you to those parents who attended the workshop with our speech therapists last week. This was a practical session where our parents learnt about how to use Pro Lo Quo2Go – a voice output programme to assist students in their communication. We are planning another workshop in the near future for more parents and for those who would like a follow up. It has been a pleasure to see and work alongside parents.

Next Tuesday night at 6.00 pm we have a session from Family Planning Queensland who are coming to work with our school on Human Relationships Education. This important parent session is for parent to hear and speak with the representatives on what they feel is important for our students in their learning about personal safety and relationships. Don’t miss this! Until next time, please take good care.

Beth Devonshire
Principal

MyTime at Caboolture

Next meeting—All Welcome
- Caboolture Special School
- Tuesday 30th July
- 9.30am in S Block

PARENT PATCH

Next week is Literacy and Numeracy Week and we will be focusing on reading across the school. The tips below offer some fun ways you can help your child become a happy and confident reader.

1. Don’t leave home without it
   - Take control of the television
   - Encourage your child to read favourite books and poems.
   - Reading helps kids read more quickly and accurately.
   - Dig deeper into the story
   - Ask your child questions about the story you’ve just read.
   - Something like, “Why do you think Clifford did that?”

2. About personal safety and relationships. Don’t miss this!
3. Bring along a book or magazine any time your child has to wait, such as at a doctor’s office. Always try to fit in reading!
4. Once is not enough
   - Remind that students can bring along their sponsor forms on the day if these have not already been returned to school.
   - This is the first year for this event and we are looking forward to everyone joining in and enjoying the riding and/or bike decorating. There’s still another couple of days to collect sponsors and come along and join in!

7-9 DEPARTMENT NEWS

Thank you so much to the parents, students and teachers who have welcomed me back to Caboolture Special School this term. I have been on maternity leave and it has been wonderful to return and see the incredible changes and growth that has occurred in this school during those 12 months.

I am amazed at the academic and social development of the students in 7-9 and I believe the reading and maths groups are playing a big part in this. The staff are doing amazing things in these groups and you would be proud to see how your child is learning and doing their best in these groups.

This semester we start a new science unit ‘Beneath Our Feet’ and a new English unit ‘News Reporting’. Please encourage your students to talk about these two topics with you at home and to share what they are learning by exploring newspapers and making note of television news reports together.

I look forward to seeing what successes this semester brings.

Amanda Turnbull—Department Leader 7-9

P - 3 DEPARTMENT NEWS

Another 2 weeks of exciting learning experiences have past for the students in P-3. As you know we are studying Fairy Tales in our English program, the students have also been developing their knowledge in Maths and Science using the focus of Fairy Tales.

P-3C have been growing bean sprouts and comparing the growth rates of the different seeds as part of their exploration of the Fairy Tale ‘Jack and The Beanstalk’. A number of the P-3 classes have been developing their Math knowledge as they enjoy the story of ‘Goldilocks and the Three Bears’. Some classes have been focusing on Patternning skills; other classes are practising size matching; and P-3H have been using the Bee-Bot Mat practising taking turns, directions, counting, programming, care of equipment, predicting and thinking ahead.

I can’t wait to see what the students will experience during the next 2 weeks.

Jordy Bauer—Department Leader P-3

TRANSITION DEPARTMENT NEWS

Courtney has been outstanding at Holy Cross Laundry where she has experienced many aspects of work at the facility. She has had glowing reports from her supervisors. When I asked her what she enjoys about her job, she replied, “I like everything!” Thanks to Melissa for her ongoing commitment in sourcing suitable employment opportunities for our senior students.

The importance of literacy, including reading and communication can be seen across all curriculum areas. Term 3 is packed full of exciting events where literacy is highlighted through a variety of experiences for our students.

Week 1 was NAIDOC (National Aborigines and Islanders Day Observance Committee) week. Department P-3 highlighted the week with storytelling by Sue Williams.

Week 3 is Literacy and Numeracy Week. Watch out for surprise guest readers who will be sharing their favourite stories to classes across the school.

Cardmaking and scrapbooking classes in Narangba for a small cost to cover expenses. First class Saturday 27th and then again on Friday 9th August.

Any enquiries and more information available from Kylie on 0408 730 495.

4-6 DEPARTMENT NEWS

It is really exciting to see staff and students using the classroom iPads beyond the classroom environment. I have seen many classes using the classroom iPads to take photographs of items for their science unit Up, Down and Around. The personalised pictures will be sorted into Up and Down categories. Some classes are learning about colours and taking colour of the week pictures during their school walks around the school. We have also started introducing using Beebots in the classroom. Beebots are robots that look like bees. This is fantastic for their units of work. Students have opportunities to learn about a range of topics such as directional language, locating story sequences, compass points and identifying changes in the sky. The opportunities are endless.

Colleen Giuppo—Department Leader Transition
